

Podere Colle All' Asino

Version 130720

Directions for the last few kilometers

Finding the "donkey mountain" and turning on to the right dirt road is not so easy. **It is therefore best to stick to the following instructions!**

How to get there: Via Pisa / Florence - Pontedera - Peccioli - La Sterza keep going towards Volterra, see also Link "Arrival map from Pisa".

1) Important! At La Sterza do NOT turn right towards the village of Lajatico and drive up the mountain! Otherwise you will come from the wrong side and you will not find the house according to these instructions!

From La Sterza, go straight towards, Saline di Volterra (sign), i.e. after La Sterza, "circle" the hill on which Lajatico is on the right.

2) After approx. 4 km do NOT turn left towards Volterra, but continue straight ahead, continue towards Saline di Volterra (sign)!

3) Now, at the small village of San Giovanni Val D'Era, there appears the pizzeria / bar "Il Vilaggio" on the right. In San Giovanni do NOT go straight on to Saline di Volterra, but turn right towards Lajatico (sign)!

4) Approx. 500 ms after San Giovanni on the road to Lajatico (SS 439b) turn left into a dirt road. Shortly before, a power line was laid across the street.

This location has the coordinates: 43° 27' 32 N / 10° 44' 54' E

On the left side, there is a
garbage can.

Here is also the sign:

"Podere Colle All' Asino"

Podere Colle All' Asino

2) Now, after a few meters,
drive a concrete bridge
without railings.

3) Slightly up the hill;
straight to a farm.

4) Pass by the farm of our
neighbours (Podere La Isola)

5) Now, passing the
wood stack of the neighbours,
turn left and drive down the dirt,
following the electricity piles.

Podere Colle All' Asino

6) At day, now you can see well the house.

7) Attention, turn left at the next crossing!

8) Pass a little bridge

9) Now you are closely to the house.

Podere Colle All' Asino

10) Now follow a final climb,
turn right ...

11) ...and at the best you drive
backwards round the house.

Welcome!
